

A woman with dark hair, wearing a yellow long-sleeved shirt, is sitting at a white desk in a bright, modern office or home workspace. She is looking at a tablet computer, which she is holding with her left hand and using a black stylus with her right hand. On the desk, there are several items: a computer monitor displaying a graphic design with a yellow circle, a keyboard, a mouse, a small potted plant, a cup of coffee, a pen holder with colorful pens, and several sheets of paper with color swatches and design templates. In the background, there is a yellow sofa with a black and white patterned pillow. The overall atmosphere is professional and creative.
